AttraTec

Supplementary Feed for Game Animals

- Suitable for all hoofed game species
- Used in combination with baiting feed or mineral feed

The Special Feature of AttraTec FeedOptimizer

By combining AttraTec FeedOptimizer with mineral feed (e.g., salt licks) and baiting feed, the taste is significantly enhanced. This highly concentrated product achieves a remarkable effect even in small quantities: With regular use, the frequency and duration of game visits to baiting sites and salt licks can be significantly increased, improving hunting success.

AttraTec FeedOptimizer

1,2 kg

- 33800-81 A – light vanilla scent
- 33800-82 B – light caramel scent
- 33800-83 C – light anise-marzipan scent

Raccoon Call

imitates the sounds of two fighting raccoons

- 33332-08

Eucalyptus Tar

twice the attraction effect compared to beech tar, due to the content of essential oils

- 33323-70 2,5 l – canister
